EDUCATION

University of Ottawa

Ottawa, ON

Bachelor of Applied Science in Software Engineering (Co-op)

Sep. 2025 – Expected Dec. 2029

- Relevant Coursework: Object-Oriented Programming, Data Structures, Digital Systems, Discrete Mathematics, Calculus
- French Studies Bursary, University of Ottawa – 2025

PROJECTS

ScoutIQ | *Java, OOP, Collections, Algorithms, File I/O* | [Demo Video](#) | [GitHub](#)

- Built a Java soccer analytics engine that ranks players using position-specific weighted scoring algorithms.
- Implemented 4-3-3, 4-4-2, and 4-2-3-1 lineup generation with validation preventing duplicate player selections.
- Added CSV roster persistence, team-balance analysis, and substitute picks with input validation and tests.

TripPilot AI | *Python, Streamlit, OpenAI API, SerpAPI, Agno* | [Demo Video](#) | [Live Demo](#) | [GitHub](#)

- Extended an open-source AI travel planner (Python, Streamlit, Agno) with budget levels and travel styles that shape both live web research and the generated itinerary.
- Deployed the app on Streamlit Community Cloud; fixed bugs where itineraries vanished after download and calendar events ignored the chosen start date.
- Two-agent pipeline (SerpAPI research agent feeding a GPT-4o planner) with .ics calendar export; added a start-date picker and readable error handling.

EXPERIENCE

Information Officer

Apr. 2025

Elections Canada

Ottawa, ON

- Applied federal electoral procedures accurately at a high-volume polling location in the 2025 federal election.
- Served electors in both English and French, guiding them through the voting process while protecting the integrity and secrecy of the vote.
- Worked with election officials to keep the polling location organized, efficient, and on schedule.

Cashier / Checkout Clerk

Dec. 2023 – Jan. 2024

Loblaws Supermarkets Limited

Ottawa, ON

- Processed customer transactions accurately while providing efficient service in a fast-paced retail environment.
- Resolved routine checkout issues and communicated effectively with customers and team members.

Soccer Referee

Jun. 2023 – Sep. 2023

Canada Soccer

Ottawa, ON

- Officiated competitive soccer matches, making rapid, independent decisions under pressure.
- Communicated rulings clearly and managed interactions with players and coaches professionally.

SKILLS

Spoken Languages: English (fluent), French (fluent)

Programming Languages: Python, Java, JavaScript, HTML, CSS

Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA

Technical Concepts: Object-Oriented Programming, Data Structures & Algorithms, API Integration, Debugging

Currently Learning: SQL (PostgreSQL), React, Docker
